

DIVYANSH SAINI

MERN Stack Developer | Full-Stack Developer | React.js | Node.js

Jaipur, Rajasthan, India | +91-6377808960 | divyanshsaini251@gmail.com | github.com/divyanshsaini251-ops

PROFESSIONAL SUMMARY

B.Tech Computer Science & Engineering graduate and Full-Stack Developer specializing in the MERN stack (MongoDB, Express.js, React.js, Node.js). Builds responsive, secure, database-driven web applications with REST APIs, JWT authentication, role-based access control, automated testing and CI/CD. Completed three internships and delivered three end-to-end projects spanning e-commerce, task management and encrypted document management.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), TypeScript, Python, SQL, HTML5, CSS3
Frontend:	React.js, Vite, React Router, Redux, Context API, Axios, Tailwind CSS, Bootstrap, Responsive Design
Backend:	Node.js, Express.js, Flask, RESTful API Design, Authentication & Authorization, RBAC
Databases:	MongoDB, Mongoose, PostgreSQL, Prisma ORM, MySQL, Flask-SQLAlchemy
Security & Testing:	JWT, bcrypt, AES-256-GCM, Jest, Supertest, API Testing, Protected Routes
Tools & DevOps:	Git, GitHub, GitHub Actions, Docker, Postman, Vercel, Render, VS Code
Core CS:	Data Structures & Algorithms, OOP, DBMS, Agile Basics

PROJECTS

DocWatch — Secure Document Management System

[GitHub Repository](#)

React + TypeScript + Vite | Node.js + Express | PostgreSQL + Prisma | JWT | Docker | GitHub Actions

- Built a full-stack platform to manage passports, licenses, insurance, warranties, certificates and subscriptions, with **expiry tracking**, configurable reminders, automated jobs, in-app/email notifications, dashboard metrics and calendar view.
- Engineered workspace-based **RBAC**, **AES-256-GCM encrypted uploads**, immutable document versions, short-lived signed download links, archive/restore and full audit history.
- Added search and tagging, REST APIs, **Jest/Supertest** integration tests, Docker-based local setup and **GitHub Actions CI** for linting, type checking and builds.

ShopEase — E-Commerce Web Application

[GitHub Repository](#)

React.js + Vite | Node.js + Express | MongoDB + Mongoose | JWT | bcrypt | Vercel | Render

- Developed a full-stack store with product listings, search, category filtering, pagination, persistent cart and multi-step checkout.
- Implemented **JWT authentication** and role-based authorization for customer/admin workflows with bcrypt password hashing and protected product/order operations.
- Built order history and status management with **server-side price recalculation** at checkout, keeping totals independent of client values; deployed frontend on Vercel and backend on Render.

TaskFlow — Task Manager with Role-Based Access

[GitHub Repository](#)

React.js + Vite | Python Flask | MySQL | REST API | JWT | bcrypt

- Built a responsive task manager with CRUD, priority tags, due dates, status filters, keyword search and modal-based editing.
- Implemented role-based access for admins and standard users, including admin control over users and roles.
- Developed a **Flask REST API** on MySQL (Flask-SQLAlchemy, PyMySQL) with JWT auth and bcrypt hashing; used Context API, hooks, React Router and Axios for auth state, protected routes and API calls.

INTERNSHIP EXPERIENCE

Junior AI Executive — Flo | Jaipur, Rajasthan

Jun 2026 – Sep 2026

- Supported AI-driven business workflows, applying Python and AI tools to automate and streamline routine tasks.
- Collaborated with the team to test, document and refine AI-based solutions before delivery.

Full Stack Developer — Bluebird Infotech | Kota, Rajasthan

May 2025 – Aug 2025

- Developed full-stack features with **React.js**, **Node.js/Express** and **MongoDB**, building REST APIs and integrating them with the frontend.
- Worked on authentication flows and followed Git-based team workflows for code reviews and delivery.

JavaScript Developer — Appinop Technologies | Jaipur, Rajasthan

Jun 2024 – Aug 2024

- Built responsive, cross-browser user interfaces using **JavaScript**, **HTML5** and **CSS3** and connected them to REST APIs.
- Fixed bugs and delivered features in a team environment using Git.

EDUCATION

B.Tech. — Computer Science & Engineering, Poornima University, Jaipur

2022 – 2026 | 74.10%

Class XII (RBSE), Abhigyan Senior Secondary School, Kota

2022 | 80.20%
